SAFETY PROGRAM

Section E: Support Services	File: EB
-----------------------------	----------

Accidents are undesirable, unplanned occurrences that can result in tragic consequences—bodily harm, loss of school time, property damage, legal action, and even fatality. The School Committee will guard against such occurrences by taking precautions to protect the safety of all students, employees, visitors and others present on school property or at school-sponsored events.

Newburyport Schools will comply with safety requirements established by governmental authorities and will insist that its staff adhere to recommended safety practices as these pertain, for example, to the school plant, special areas of instruction, student transportation, school sports and occupational safety.

The practice of safety will also be considered a facet of the instructional program of the schools. Instruction will include accident prevention as well as fire prevention; emergency procedures; traffic, bicycle, and pedestrian safety.

The Superintendent will have overall responsibility for the safety program of the school system. It will be the responsibility of the Superintendent to see that appropriate staff members are kept informed of current state and local requirements relating to fire prevention, civil defense, sanitation, public health, and occupational safety.

Efforts directed toward the prevention of accidents will succeed only to the degree that all staff members recognize that preventing accidents is a daily operational responsibility.

PEST MANAGEMENT

The Newburyport Public Schools are committed to providing a safe and properly maintained environment for all staff, students and visitors. To achieve this end, the School District will implement integrated pest management procedures for its buildings and grounds.

The integrated pest management procedures shall include implementation of appropriate prevention and control strategies, notification of certain pesticide and herbicide uses, record keeping, education and evaluation.

Integrated pest management procedures will determine when to control pests and what method of control to choose. Strategies for managing pest populations will be influenced by the pest species, location and whether and at what population level its presence poses a threat to people, property or the environment. The full range of action alternatives, including no action, will always be considered.

I. OVERVIEW AND GOALS

- A. The Director of Facilities shall develop and implement an integrated pest management program.
- B. An integrated pest management program is a pest control approach that emphasizes using a balanced combination of tactics (cultural, mechanical, biological, chemical) to reduce pests to a tolerable level while using pesticides and herbicides as a last resort to minimize health, environmental and economic risks.
- C. Pesticides and herbicides will be used only as a last resort, based on a review of all other available options.
- D. The integrated pest management program shall strive to:
 - 1. Reduce any potential human health hazard.
 - 2. Reduce loss or damage to school structures or property.
 - 3. Minimize the risk of pests from spreading in the community.
 - 4. Enhance the quality of facility use for school and community.
 - 5. Minimize health, environmental and economic risks.

II. RESTRICTIONS ON USE OF PESTICIDES AND HERBICIDES

- A. When pesticides or herbicides are used, they must be classified as an EPA Category III or IV. Application of any pesticide or herbicide may be performed only by certified applicators.
- B. Application of pesticides and herbicides may only be accomplished during a school break or when the building will be clear of students for at least 48 hours, except in the case of an imminent threat to health and safety of staff and students (i.e. swarming bees).

III. NOTIFICATION OF PESTICIDE AND HERBICIDE USE

- A. When pesticides or herbicides are used outdoors, notice of their use will be provided to parent/guardians, staff and students and will also be posted in a common area.
- B. When pesticides and herbicides are used in a building, except in the case of an imminent threat to health and safety of staff and students (i.e. swarming bees), the site will provide a 48-hour pre-notification in the form of posting the product

name, purpose, application date, time and method and the Material Safety Data Sheet on all entrance doors. A contact person will also be listed.

C. In the event of an EPA registered pesticide or herbicide application in or around a building site during the school year or summer session, a notice (including the product name, purpose, contact person, and application date, time and method), will be sent home in writing with students in the affected building at least 5 days prior to application.

IV. RECORD-KEEPING

A. The District will keep a record of pesticides and herbicides used, amounts and locations of treatments and will keep any Material Safety Data Sheets, product labels and manufacturer information on ingredients related to the application of the pesticides or herbicides.

B. All records of pesticides and herbicides used and correspondence will be available for public review upon notice and during normal school hours.

V. STAFF RESPONSIBILITIES AND EDUCATION

A. Designated staff (School Nutrition, Buildings and Grounds, etc.) will participate in sanitation and pest exclusion procedure appropriate to their roles. For example: keeping doors closed, repairing cracks, removing food waste within 12 hours, keeping lids on garbage receptacles and keeping vegetation properly cut.

B. Ongoing education of all appropriate District staff will be a priority to ensure a safe and clean environment.

C. Personal food in classrooms and offices shall be minimized, kept in properly sealed plastic containers and removed at each of the school vacation breaks to assure that unnecessary food does not remain on the premises.

FIRST AID

Section E: Support Services	File: EBB
-----------------------------	-----------

The district attempts to provide a safe environment. If an accident or sudden illness occurs, school personnel will administer first aid and, if warranted, call emergency medical services. In the case of illness that may include an infectious disease the school physician shall be notified in accordance with law.

First aid is defined as the immediate and temporary care given in case of an accident or sudden illness, which enables the child to be taken safely home or to a physician. It does not include diagnosis or treatment. Any care beyond first aid will not be given.

At each school, procedures will be maintained for the proper handling of an injury to, or sudden illness of, a child or staff member. These will be made known to the staff and will incorporate the following requirements:

1. The school nurse or another trained person will be responsible for administering first aid.
2. When the nature of an illness or an injury appears in any way serious, every effort will be made to contact the parent/guardian and/or family physician immediately.
3. In extreme emergencies, the school nurse, school physician or Principal may make arrangements for immediate transport to a hospital of injured or ill students, contacting parent or guardian in advance if at all possible.
4. The teacher or other staff member to whom a child is responsible at the time an accident occurs will make out a report on an official form providing details about the accident. This will be required for every accident for which first aid is given.
5. All accidents to students and staff members will be reported as soon as possible to the Superintendent and, if the Superintendent deems appropriate, to the School Committee.

EMERGENCY PLANS

Section E: Support Services	File: EBC
-----------------------------	-----------

Advance planning for emergencies and disasters is essential to provide for the safety of students and staff; it also strengthens the morale of all concerned to know that plans exist and that students and staff have been trained in carrying out the plans.

The Superintendent will develop and maintain plans that meet the requirements of state law for preparedness in case of fire, civil emergencies, and natural disasters.

The Superintendent shall develop, in consultation with school nurses, school physicians, athletic coaches, trainers, and local police, fire and emergency personnel, an Emergency Medical Response Plan for each school in the district. Each Plan shall include:

1. A method establishing a rapid communications system linking all parts of each school's campus, including outdoor facilities, to local Emergency Medical Services along with protocols to clarify when EMS and other emergency contacts will be called.
2. A determination of EMS response times to any location in the schools.
3. A list of relevant contacts with telephone numbers and a protocol indicating when each person shall be called, including names of experts to help with post-event support.
4. A method to efficiently direct EMS personnel to any location in the schools, including the location of available rescue equipment.
5. Safety precautions to prevent injuries in classrooms and on the school campus.
6. A method of providing access to training in CPR and first aid for teachers, athletic coaches, trainers, and other school staff which may include CPR training for High School students.
7. The location of all available Automated External Defibrillators (AEDs), whether the location is fixed or portable, and a list of personnel trained in its use.
8. Initial and yearly refresher training for all staff covering Emergency management protocols (ALICE).

The Superintendent shall annually review the response sequence with local police and fire officials. Plans shall be submitted to local police and fire officials and the DESE at least every 3 years by September 1 or when changes occur. Plans must be updated in the case of new construction or other physical changes to the school campus.

Building Principals will meet all requirements for conducting fire drills and Emergency Response drills (at least once per year) to give students practice in moving with orderly dispatch to designated areas under emergency conditions, and the staff practice in carrying out their assigned responsibilities for building evacuation.

BUILDINGS AND GROUNDS MANAGEMENT

Section E: Support Services	File: EC
-----------------------------	----------

The School Committee's most important function is to provide for the education of children, and it recognizes that the education of children is dependent upon many factors, including a proper physical environment that is safe, clean, sanitary, and as comfortable and convenient as the facilities will permit or the use requires.

The supervision over the care and safekeeping of property used by the school department will be the general responsibility of the Director of Facilities. He/she will work with other municipal departments, as necessary, to develop a comprehensive and well-defined plan for the proper maintenance, cleanliness, and safekeeping of all school buildings and grounds to ensure that each school is equally well maintained, equipped, and staffed.

The Superintendent will establish procedures and employ such means as may be necessary to provide accurate information in regard to the nature, condition, location, and value of all property used by the school department; to safeguard the property against loss, damage, or undue depreciation; to recover and restore to usefulness any property that may be lost, stolen or damaged; and to do all things necessary to ensure the proper maintenance, cleanliness, and safekeeping of school property.

The Director of Facilities will be responsible for proper care, maintenance, and cleanliness of buildings, equipment and grounds.

BUILDINGS AND GROUNDS SECURITY

Section E: Support Services	File: ECA
-----------------------------	-----------

Public school buildings and grounds are one of the greatest investments of the City of Newburyport. It is deemed in the best interest of the school department and City to protect the investment adequately.

Security should mean not only maintenance of a secure (locked) building, but protection from fire hazards and faulty equipment, and safe practices in the use of electrical, plumbing, and heating equipment. The School Committee expects close cooperation with fire and law enforcement departments and with insurance company inspectors.

Access to school buildings and grounds outside of regular school hours will be limited to personnel whose work requires it. An adequate key control system will be established, which will limit access to buildings to authorized personnel and will safeguard against the chance of entrance to buildings by unauthorized persons.

Funds and valuable records will be kept in a safe place and under lock and key.

Protective devices designed to be used as safeguards against illegal entry and vandalism will be installed when appropriate to the individual situation. Employment of security personnel may be approved in situations where special risks are involved.

Buildings shall be equipped with security alarm systems which shall be armed whenever the building is unoccupied. Access control and security camera systems shall monitor and record all access to the buildings 24 hours a day, seven days a week. Funding shall be adequate to maintain all systems in full working order. Maintenance of the systems shall be the responsibility of the Director of Facilities.

VANDALISM

The School Committee recognizes that acts of vandalism committed against public and private property are costly and require positive action through educational programs. Consequently, the School Committee will support various programs aimed at reducing the amount of vandalism.

Every citizen of the city, staff members, students, and members of the police department are urged by the School Committee to cooperate in reporting any incidents of vandalism to property under control of the school department, and the name(s) of the person or persons believed to be responsible. Each employee will report to the Principal of the school every incident of vandalism known to him/her and, if known, the names of those responsible.

The Superintendent is authorized to sign a criminal complaint and to press the charges against perpetrators of vandalism against school property, and is further authorized to delegate, as he/she sees fit, authority to sign such complaints and to press charges.

Parents and students will be made aware of the legal implications involved. Reimbursement will be sought for all or part of any damages.

SECURITY CAMERAS IN SCHOOLS

The School Committee works to maintain a safe and secure environment for its students, staff, visitors, and facilities. Security means more than having locks and making certain that doors are locked at the proper times. Security also means minimizing fire hazards, reducing the possibility of faulty equipment, keeping records and valuables in a safe place, protection against vandalism and burglary, the prosecution of vandals, and developing crisis plans.

School facilities and their contents, constitute one of the greatest investments of the community. The School Committee believes it to be in the best interest of students and taxpayers for the district to exert every reasonable means to protect the investment adequately.

In pursuit of this objective, the School Committee authorizes the use of security cameras in school district buildings and on its property to ensure the health, welfare and safety of all students, staff and visitors, to deter theft, vandalism and other negative behavior, to safeguard district buildings, grounds and equipment, and to monitor unauthorized individuals in or on school property. Security cameras may be used in locations as deemed appropriate by the Superintendent of Schools in consultation with school officials as well as local law enforcement and emergency response agencies. They may be used in any area, inside or outside of school buildings where there is no reasonable expectation of privacy.

The district shall notify students and staff through student and employee handbooks and appropriate signage that security cameras have been installed and may be used at any time. Students or staff identified on security cameras in violation of School Committee policies will be subject to disciplinary action.

The Superintendent shall ensure that proper procedures are in place and are followed regarding use, viewing, disclosure, retention, disposal and security of video recordings or photographs from security cameras in accordance with applicable laws and regulations. A video recording used for security purposes in school district buildings and/or on school property shall be the sole property of the school district. All video recordings will be stored in their original format and secured to avoid tampering and to ensure confidentiality in accordance with applicable laws and regulations. Access to video recordings from security cameras shall be limited to school administrators (Superintendent/designee, School Principal/designee), law enforcement and emergency response officials.

The Superintendent may, from time to time, issue further guidance that is consistent with current laws and this policy.

AUTHORIZED USE OF SCHOOL-OWNED MATERIALS

Section E: Support Services	File: EDC
-----------------------------	-----------

The School Committee wishes to be of assistance, whenever possible, to other city departments and community organizations. Therefore, permission to use school equipment may be granted by the Superintendent upon request by responsible parties or organizations.

School equipment may be utilized by staff when the use is related to their school employment, and by students when the equipment is to be used in connection with their studies or extracurricular activities.

Proper controls will be established by the Superintendent to assure the user's responsibility for, and return of, all school equipment.

STUDENT TRANSPORTATION SERVICES

Section E: Support Services	File: EEA
-----------------------------	-----------

The major purpose of the school system's transportation services is to aid students in getting to and from school in an efficient, safe, and economical manner if bugetarily feasible.

The school system will contract for transportation services. The School Committee will award contracts on a competitive bid basis. Bus contractors and taxi contractors, who will be held responsible for the safe operation of school buses, will comply with all applicable state laws and regulations, including but not limited to:

1. Specifications for school bus design and equipment
2. Inspection of buses
3. Qualifications and examinations of bus drivers
4. Driving regulations
5. Small vehicle requirements, if applicable
6. Insurance coverage
7. Adherence to local regulations and directives as specified in bid contracts

The Superintendent, working with the bus contractor and other appropriate administrators, will be responsible for establishing bus schedules, routes, stops, and all other matters relative to the transportation program.

WALKERS AND RIDERS

Section E: Support Services	File: EEAA
-----------------------------	------------

Students will be entitled to transportation to and from school at the expense of the public schools when such transportation conforms to applicable provisions of the Massachusetts General Laws.

Newburyport Schools will provide transportation for students as follows:

- Students eligible for mandated (Free) transportation including the following:
 - All students in Kindergarten through grade 6 that live 2 or more miles from school
 - All students who qualify for free and reduced lunch
 - students with special needs for whom transportation must be provided
- Any other students are eligible for ridership by paying the transportation fees set each year by the School Committee
 - All students in Kindergarten through grade 6 that live 2.0 Miles and under from school
 - All students in grades 7-12

Exceptions to these guidelines may be made at the discretion of the Superintendent. This will apply particularly to any student who must travel in a hazardous area to and from school.

The School Committee requires that all students, regardless of pay-status to register for transportation and receive their bus pass.

As a school district we encourage students to use alternative transportation (walking and biking) and support Safe Routes to School Initiative

DRUG AND ALCOHOL TESTING FOR SCHOOL BUS AND COMMERCIAL VEHICLE DRIVERS

Section E: Support Services	File: EB
-----------------------------	----------

The District shall adhere to federal law and Department of Transportation regulations requiring a drug and alcohol-testing program for school bus drivers and commercial vehicle drivers. Such testing will be conducted for five different situations: pre-employment, randomly, following an accident, following an authorization to return to duty, and upon reasonable suspicion that a driver is under the influence of alcohol or using drugs.

The District will comply with Department of Transportation protocols regarding the collection and testing necessary to establish whether alcohol or drugs are present in the driver's system, and regulations will be established for the steps to be taken in the event that test results are positive.

This program shall comply with the requirements of Federal law and regulations. The Superintendent or designees shall adopt and enact procedures consistent with the federal regulations, defining the circumstances and procedures for testing.

STUDENT CONDUCT ON SCHOOL BUSES

Section E: Support Services	File: EEAEC
-----------------------------	-------------

The School Committee and its staff share with students and parents the responsibility for student safety during transportation to and from school. The authority for enforcing School Committee requirements of student conduct on buses will rest with the Principal.

To ensure the safety of all students who ride in buses, it may occasionally be necessary to revoke the privilege of transportation from a student who abuses this privilege. Parents of children whose behavior and misconduct on school buses endangers the health, safety, and welfare of other riders will be notified that their children face the loss of transportation privileges in accordance with regulations approved by the School Committee.

Please see Policy JICB for specific Student Conduct expectations.

STUDENT TRANSPORTATION IN PRIVATE VEHICLES

School buses will be used for the transportation of students participating in co-curricular or extracurricular activities. However, when buses are not available, private vehicles may be permitted to transport students to or from school activities that fall within the academic day or extend the school day provided all of the following conditions are met:

1. The activity has the approval of the Superintendent of Schools.
2. The owner of the vehicle being used in transporting students must file evidence with the Superintendent of personal liability insurance coverage on the vehicle in the amounts of \$100,000 - \$300,000 or more.
3. The parents of students to be transported in this manner will be fully informed as to this means of transportation and will sign a statement to this effect.

MOTOR VEHICLE IDLING ON SCHOOL GROUNDS

Section E: Support Services

File: EEAJ

No motor vehicle operator shall cause or allow any motor vehicle operated by him or her on school grounds to idle unnecessarily, except for any of the following reasons: traffic conditions; queuing at a school for the purpose of picking up or discharging students; turbo-charged diesel engine cool down or warm up; maintenance of appropriate temperature for school buses when accepting or discharging passengers not to exceed three minutes in any fifteen minute period or one minute in any fifteen minute period for other motor vehicles; for circumstances involving safety or emergencies and for servicing or repairing motor vehicles; and as these exceptions are more completely described in the below referenced regulations. The term "school grounds" shall mean in, on or within 100 feet of the real property of the school whether or not it is in session, and shall include any athletic field or facility and any playground used for school purposes or functions which is owned by the municipality or school district, regardless of proximity to a school building, as well as any parking lot appurtenant to such school athletic field, facility or playground. Reasonable efforts shall be made by the district to identify by signage all known and actual air intake systems, which may be within 100 feet of an idling motor vehicle. A motor vehicle operator shall not idle a motor within 100 feet of such air intake system, unless the Newburyport_School District has determined that alternative locations block traffic, impair student safety or are not cost effective.

The Newburyport School District shall erect and maintain in a conspicuous location on school grounds "NO IDLING" signage as described below. All such signage shall contain appropriate sized font so as to be visible from a distance of 50 feet.
