

Newburyport Public Schools District Accommodation Plan

The mission of the Newburyport Public Schools, the port where tradition and innovation converge, is to ensure each student achieves intellectual and personal excellence and is equipped for life experiences through a system distinguished by students, staff, and community who:

- *practice kindness and perseverance*
- *celebrate each unique individual*
- *value creativity; experiential, rigorous educational opportunities; scholarly pursuits; and life-long learning*
- *provide the nurturing environments for emotional, social, and physical growth*
- *understand and embrace their role as global citizens.*

Newburyport District Curriculum Accommodation Plan

District Curriculum Accommodation Plan (DCAP) is a guide for principals and teachers in ensuring that all efforts have been made to meet students' needs in general education. The plan is designed to assist the general education classroom teacher in analyzing and accommodating diverse learning styles of all children in the typical classroom. Documenting the available interventions, accommodations, instructional supports and strategies in general education for struggling learners is intended to support the variety of learners in our schools.

Massachusetts General Laws, Chapter 71, Section 38Q1/2

"A school district shall adopt and implement a curriculum accommodation plan to assist principals in ensuring that all efforts have been made to meet students' needs in regular education. The plan shall be designed to assist the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systematic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning, or who do not qualify for special education services under chapter 71B. The curriculum accommodation plan shall include provisions encouraging teacher mentoring and collaboration and parental involvement."

Newburyport Public Schools is committed to providing all students with a comprehensive and rich general curriculum that is aligned with the *Massachusetts Curriculum Frameworks*. Students in the Newburyport Public Schools system represent a wide range of learners and unique learning styles. In response to the needs of these diverse learners, Newburyport Public Schools provides curriculum, instruction, and professional development to ensure that all students are able to achieve in meaningful and productive ways.

Principals assume the primary responsibility for the efforts described in the attached *Curriculum Accommodation Plans*. The school councils, including the school principal, shall meet regularly and assist in the identification of the educational needs of the students attending the school, make recommendations to the principal for the development, implementation and assessment of the curriculum accommodation plan required pursuant to MA General Law C.71, section 38Q1/2.

Newburyport is an inclusive district that respects every child's contribution to our learning community. All professionals within the district share responsibility for providing our students with access to and participation in high quality general education. A number of factors contribute to the successful accommodation of diverse learners within the district.

The accommodations below represent a non-exhaustive list of intervention strategies that may be employed by teachers for all students, when appropriate across the Newburyport Public Schools.

**District Curriculum Accommodation Plan
Angela Bik, Assistant Superintendent of Curriculum & Instruction**

Strategies	Descriptions
